NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED DECEMBER 31, 2020 AND 2019
(unaudited - expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

MAS Gold Corp. (the “Company” or “MAS Gold”) was incorporated under the laws of British Columbia on July 7, 1981. The Company is an exploration stage public company listed on the TSX Venture Exchange, whose principal business activities include the exploration and development of exploration and evaluation properties in Canada. The Company’s offices are located at 420 – 789 West Pender, Vancouver, British Columbia, V6C 1H2.

The Company is currently exploring its mineral properties and has not yet determined whether they contain resources that are economically recoverable. The recoverability of amounts capitalized for mineral properties is dependent upon the discovery of sufficient economically recoverable ore resources, confirmation of the Company’s interest in the underlying mineral properties, the ability of the Company to arrange appropriate financing to complete the development of the mineral properties and upon future profitable production or proceeds from the sale of the mineral properties.

The Company’s financial statements have been prepared on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. As at December 31, 2020, the Company had an accumulated deficit of \$20,459,309 (September 30, 2019 – \$20,107,152) and working capital 2,650,569 (September 30, 2020 – working capital deficiency of 353,162). The ability of the Company to continue as a going concern and meet its commitments as they become due, including completion of the acquisition, exploration and development of its mineral property interests, is dependent on the Company’s ability to obtain the necessary financing. Management is planning to raise additional capital to finance operations and expected growth. If the Company is unable to obtain additional financing, the Company will be unable to continue. There can be no assurances that management’s plans will be successful.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in future profitable mining operations. The recoverability of the carrying value of exploration and evaluation assets and the Company’s ability to continue as a going concern is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations or the ability of the Company to raise alternative financing. These factors raise significant doubt about the Company’s ability to continue as a going concern.

These financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PRESENTATION

Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 *Interim Financial Reporting*, are in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and are consistent with the interpretations by the International Financial Reporting Interpretations Committee (“IFRIC”). The Audit Committee approved and authorized for issue to the Board of Directors on August 28, 2020.

MAS GOLD CORP.

(an exploration stage enterprise)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED DECEMBER 31, 2020 AND 2019
(unaudited - expressed in Canadian Dollars)

2. BASIS OF PRESENTATION (Continued)

Statement of compliance (Continued)

These condensed interim financial statements have been prepared using the accounting policies as set out in the audited annual financial statements for the year ended September 30, 2020. The disclosures which follow do not include all disclosures required for the annual financial statements. These unaudited interim financial statements should be read in conjunction with the audited financial statements and notes for the year ended September 30, 2020. The Company's functional and reporting currency is the Canadian dollar.

3. NEW STANDARDS, AMENDMENTS, AND INTERPRETATIONS NOT YET EFFECTIVE

Certain new standards, interpretations and amendments to existing standards are not yet effective and have not been applied in preparing these financial statements. The Company is assessing the impact of these standards on the financial statements, if any.

4. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

The Company's financial instruments are exposed to certain financial risks: credit risk, liquidity risk and market risk.

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash and accounts receivable are exposed to credit risk. The Company minimizes credit risk by placing its cash with major Canadian financial institutions. There is credit risk with respect to accounts receivable of \$382,544, representing the maximum credit risk exposure to the Company.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company's approach to managing liquidity risk is to ensure that it has sufficient capital to meet short-term financial obligations after taking into account its exploration obligations and cash on hand. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risks consist of interest rate risk, foreign currency risk and other price risk. The Company is not exposed to significant market risk.

MAS GOLD CORP.

(an exploration stage enterprise)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED DECEMBER 31, 2020 AND 2019
(unaudited - expressed in Canadian Dollars)

5. CAPITAL RISK MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of its properties and to maintain a flexible capital structure for its projects for the benefit of its stakeholders. In the management of capital, the Company includes the components of shareholders' equity.

The Company manages the capital structure and adjusts it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or reduce expenditures. Management reviews the capital structure on a regular basis to ensure that objectives are met.

There have been no changes to the Company's approach to capital management during the current period. The Company is not subject to external restrictions on its capital.

6. EXPLORATION AND EVALUATION INTERESTS

The investment in and expenditures on mineral properties comprise a significant portion of the Company's operations. Realization of the Company's investment in these assets is dependent upon the establishment of legal ownership, the attainment of successful production from the properties or from the proceeds of their disposal.

Mineral exploration and development is highly speculative and involves inherent risks. While the rewards if an ore body is discovered can be substantial, few properties that are explored are ultimately developed into producing mines. There can be no assurance that current exploration programs will result in the discovery of economically viable quantities of ore.

The amounts shown are for acquisition costs incurred to date and do not reflect present or future values. These costs will be written off if the properties are abandoned or the claims allowed to lapse.

Environmental

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates. The Company conducts its mineral exploration activities in compliance with applicable environmental protection legislation. The Company is not aware of any existing environmental problems related to any of its current or former properties that may result in material liability to the Company.

Environmental legislation is becoming increasingly stringent and the expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions.

If the restrictions adversely affect the scope of exploration and development on the mineral properties, the potential for production on the property may be diminished or negated.

MAS GOLD CORP.*(an exploration stage enterprise)*NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED DECEMBER 31, 2020 AND 2019
(unaudited - expressed in Canadian Dollars)**6. EXPLORATION AND EVALUATION INTERESTS (Continued)****Title to exploration and evaluation interests**

Although the Company has taken steps to verify the title to mineral property interests in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and may be affected by undetected defects.

The Company has capitalized the following acquisition expenditures:

	Greywacke	Preview Lake	North Lake	Elizabeth Lake	Total
Balance, September 30, 2020	\$ 137,394	\$ 411,535	\$ 294,868	\$ 35,000	\$ 878,797
Balance, December 31, 2020	\$ 137,394	\$ 411,535	\$ 294,868	\$ 35,000	\$ 878,797

MAS GOLD CORP.*(an exploration stage enterprise)*NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED DECEMBER 31, 2020 AND 2019
(unaudited - expressed in Canadian Dollars)**6. EXPLORATION AND EVALUATION INTERESTS (Continued)****Title to exploration and evaluation interests (continued)**

The Company has expensed the following evaluation and exploration expenditures:

Three months ended December 31	
2020	
Assays	\$ 1,945
Environmental and engineering	72,796
Field crew, camp costs and supplies	566
	<u>\$ 75,307</u>
2019	
Assays	\$ 1,160
Geology	149,194
Permits, staking, legal, community relations and maintenance	93,296
	<u>\$ 243,650</u>

Greywacke – Saskatchewan

In 2001, the Company earned a 51% interest in four mineral claims located in northern Saskatchewan for consideration of \$10,000, the issuance of 16,665 common shares and by incurring certain exploration expenditures. On September 20, 2011, the Company entered into the Greywacke Joint Venture Agreement with Golden Band Resources ("Golden Band"), the holder of the remaining 49% interest, to advance the property. MAS is the operator. This arrangement is accounted for as a joint operation. The Greywacke Joint Venture Agreement was expanded in June 2012 to form the La Ronge South Gold Joint Venture Agreement ("LRG JV"), which includes the Preview Lake and North Lake properties, with participating interests being 50:50 in all three properties, including Greywacke.

The LRG JV is intended to pass operatorship from MAS to Golden Band on a project specific basis, once the specific project changes to a producer status. Recent developments may no longer make that possible and Golden Band has suspended its mining operations. In a court ordered debt restructuring effective July 22, 2016, all the shares of Golden Band were acquired by Procon Resources Inc., its largest creditor. In accordance with the terms of the LRG JV, MAS has first right of refusal for all the property under the JV agreement. Any acquirer is obligated to conduct business under the LRG JV. A court ruling, disallowed MAS's arguments to enforce dilution on disputed costs occurring prior to April 15, 2016.

MAS GOLD CORP.

(an exploration stage enterprise)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED DECEMBER 31, 2020 AND 2019
(unaudited - expressed in Canadian Dollars)

6. EXPLORATION AND EVALUATION INTERESTS (Continued)

Title to exploration and evaluation interests (continued)

Greywacke – Saskatchewan (continued)

Subsequent to the ruling, MAS has provided notices of dilution to Golden Band for exploration expenses incurred after April 15, 2016, which Golden Band did not fund, including the exploration programs completed in fiscal 2019 and 2018. These notices reduced the ownership position of Golden Band down to below 10% as at September 30, 2020. In accordance with the terms of the LRGJV, as Golden Band's interest is reduced below 10%, their interest is converted to a 2.5% net smelter returns royalty ("Royalty") position and MAS assumes 100% ownership of the properties, MAS has the right to purchase the Royalty at any time for \$1,000,000., including the exploration programs completed in fiscal 2018, 2019 and to date in fiscal 2020. These notices reduced the ownership position of Golden Band below 10%. In accordance with the terms of the LRSJV, once a party is diluted below 10%, they are converted to a royalty position and MAS assumes 100% ownership in the LRSJV assets. Notice of this, and a request for title transfer, were issued to Golden Band on January 8, 2020. Golden Band is disputing the dilution.

Preview Lake – Saskatchewan

On April 2, 2012, Golden Band acquired a 66.67% interest in the Preview Lake properties, located within the southern La Ronge gold belt and, on June 15, 2012, Golden Band acquired the remaining 33.33% interest from Cameco Corporation and Areva Resources Canada Inc. The Company paid Golden Band \$340,009 and issued 75,000 common shares, with a fair value of \$8,250, in consideration for a 50% interest.

The Company paid 100% of the exploration costs in this first year's exploration program, with a minimum expenditure of \$300,000, which has been reached; thereafter, each party pays its pro rata share of all expenditures relating to such properties. There is a 5% net profit interest royalty in favour of a vendor on claim ML 5427 and a 1% gross revenue royalty in favour of a vendor on claim S-101681.

North Lake – Saskatchewan

The Company has earned a 50% participating interest in the North Lake properties by paying \$150,000 and issuing 25,000 common shares with a fair value of \$2,750 to Golden Band. The Company paid the first \$100,000 in exploration costs in the first year, and, thereafter, will pay its 50% share of any exploration costs and expenses relating to these properties, as well as Golden Band's earn-in costs from the optionor. Subsequent to earning its position, both parties are obligated to meet its share of the earn-in obligations.

On September 30, 2014, pursuant to a Second Amending Agreement, the option was amended whereby a total of \$850,000 in exploration expenditures on one of the claims, CBS 7396 in the LRG JV, which was to occur by October 14, 2014, may be incurred in five years following the election date for consideration of \$200,000 (50% each paid by the Company and Golden Band in May 2015). The vendor retains a 2% net smelter return royalty with a buyback provision of 1%. The company remains in compliance with this agreement.

On October 8, 2019, pursuant to an Option Agreement, the company acquired 100% interest in North Lake properties by paying \$1,500 and issuing 300,000 common shares with a fair value of \$13,500 to Eagle Plains Resources Ltd, (Eagle Plains). Eagle Plains retains a 2% smelter return royalty ("NSR") with a buyback provision for 1% of the NSR, which is purchasable at any time for \$1,000,000.

MAS GOLD CORP.

(an exploration stage enterprise)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED DECEMBER 31, 2020 AND 2019
(unaudited - expressed in Canadian Dollars)

6. EXPLORATION AND EVALUATION INTERESTS (Continued)

Title to exploration and evaluation interests (continued)

Little Deer Lake – Saskatchewan

On March 30, 2014, the Company acquired an undivided 100% interest in the Little Deer Lake Property S-112357 adjacent to the North Lake property and Highway 102 from Wesdome Gold Mines Ltd. for \$1,000 and granted a 1% net smelter return royalty to the vendor. Under the terms of the LRG JV, a 50% interest was offered to Golden Band and although accepted, Golden Band's portion of the acquisition costs remain unpaid. The Company retains 100% interest of the property outside of the LRG JV.

During the year ended September 30, 2016, as the Company determined there were indicators of impairment on the property and as such, the value was written down to \$nil by \$1,000, in accordance with Level 3 of the fair value hierarchy.

Elizabeth Lake – Saskatchewan

In April 2018, the Company acquired a 100% interest in the Elizabeth Lake properties, located within the southern La Ronge gold belt for cash consideration of \$35,000.

7. SHARE CAPITAL

Authorized

Unlimited number of common shares without par value.

Private placements

On December 31, 2020 the Company issued 30,017,171 common share units (the "Units") at a price of \$0.06 and 17,992,139 flow through units at a price of \$0.07 per unit (the "FT Units") for total gross proceeds of \$3,060,479. All Units were comprised of one common share and one common share purchase warrant, exercisable for two years at a price of \$0.10. All FT Units were comprised of one common share and one half of one common share purchase warrant, with each whole warrant exercisable for two years at a price of \$0.10. Cash share issue costs of \$157,607 were incurred. The market price of the flow through shares was \$0.095 per share on the closing date. The Company recorded a flow through premium of \$1,957 which will be satisfied in fiscal 2021.

On December 19, 2019 the Company issued 3,739,357 flow through units at a price of \$0.07 per unit and 2,161,700 units at a price of \$0.06 per unit for total proceeds of \$391,457. All units were comprised of one common share and one common share purchase warrant, exercisable for two years at an exercise price of \$0.10. Cash share issue costs of \$7,357 were incurred. The market price of the flow through shares was \$0.06 per share on the closing date. The Company recorded a flow through premium of \$37,394, of which \$20,949 was satisfied and recovered in fiscal 2020 and \$16,445 remains outstanding as December 31, 2020.

In two tranches, on April 3, 2019 and May 8, 2019, the Company issued 1,833,333 non-flow through units at a price of \$0.12 per unit and 500,000 flow through shares at a price of \$0.12 per share for total gross proceeds of \$280,000. The non-flow through units were comprised of one common share and one half of a common share purchase warrant. Each whole warrant is exercisable to acquire one common share for two years at an exercise price of \$0.15. Finders fees of \$360 and 3,000 broker warrants were paid and/or issued on a portion

7. SHARE CAPITAL (Continued)

Private placements (continued)

of the financing. The Company also incurred additional cash share issuance costs of \$6,744. The market price of the flow through shares was \$0.10 per share on the closing date. The Company recorded a flow through premium of \$10,000, which was satisfied and recovered in fiscal 2019.

In December 2020, the company issued 30,017,171 units at a price of \$.06 per Unit and \$17,992,139 Flow Through (FT) Units at a price of \$0.07 per FT unit. Each Unit is comprised of a one common share of the company and one Common share purchase warrant. Each FT Unit consists of one "flow-through" common share of the company that will qualify as a "flow through share" within the meaning of the subsection 66(15) of the Income Tax Act (Canada) and one-half of on Warrant. Each warrant is exercisable to acquire one Common Share at a price of \$0.10 per Warrant Share for a period of 24 months from the closing of the Offering.

The net proceeds for the Offering, \$3,060,479, will be used to establish an economically viable resource by combining ounces from the portfolio properties located in the La Ronge Gold Belt. This will included drill programs on its North lake and Greywacke properties as well as further definition drilling, surface geological mapping and other explorations work on its properties. A portion of the proceeds will be used for working capital requirements and other general corporate purposes.

Stock options and warrants

The Company's registered stock option plan authorizes the Company to grant incentive stock options to executive officers, directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. Under the plan, the exercise price of each option equals the market price of the Company's stock on the date of grant. The options can be granted for a maximum term of five years. Stock options granted in relation to investor relations activities vest in 25% increments over one year from the grant date; all other stock options vest immediately.
